Owner's Manual.

PC1000

GT Power Cage

www.viavito.com

Manual version 1.1

Congratulations
on purchasing your
very own **PC1000**
GT Power Cage.

You have chosen a high-quality, safe and innovative piece of exercise equipment as your training partner and we are certain it will keep you motivated on the way to achieving your personal fitness goals.

Please take the time to read this owner’s manual as it will help you to get the most out of your new piece of equipment.

For more information, or if you require any assistance please email us at **support@viavito.com**

Safety Standards:

The weight bench conforms to the following standard:
EVS-EN ISO 20957-1-2013

Safety Information

- Please read all the instructions carefully before using this product.
- Retain this manual for future reference.
- The specifications of this product may vary slightly from the illustrations and are subject to change without notice.

This exercise machine is built for optimum safety. However, certain precautions apply whenever you operate a piece of exercise equipment. Be sure to read the entire manual before you operate your machine. In particular, note the following safety precautions:

- 01** It is the responsibility of the owner to ensure that all users of the power cage are adequately informed of all precautions.
- 02** The power cage is intended for home use only. Do not use the power cage in any commercial, rental, or institutional setting.
- 03** Keep the power cage indoors, away from moisture and dust. Do not put the power cage in a garage or covered patio, or near water.
- 04** Use the power cage only on a level surface. Cover the floor beneath the power cage to protect the floor.
- 05** Children and pets shall not play unsupervised around the power cage.
- 06** Damaged or worn parts may be dangerous for users and the integrity of the power cage. Replace worn or damaged components immediately and do not use the power cage until any issues have been resolved. Use only spare parts supplied by Viavito.
- 07** Always wear appropriate workout clothing when exercising. Sports shoes are required when using this equipment.
- 08** If you feel pain or dizziness at any time while exercising, stop immediately and begin cooling down.
- 09** Choking hazard! Keep small parts and polybags away from children.
- 10** Make sure there is enough clearance around the power cage (at least 0.6m in all directions).
- 11** Only use the power cage for its intended purpose. It is not suitable for therapeutic or medical purposes.
- 12** Check all the bolts, nuts and other connections before using the power cage for the first time and ensure that it has been built correctly and is safe to be used.
- 13** Unauthorized repairs or altering the power cage's design or functions may be dangerous and will void the warranty.

- 14** Periodically check all bolts, nuts and other connections to make sure that they are secure and in good working condition.
- 15** WARNING! Inappropriate use of this machine such as while under the influence of drugs or alcohol, not in line with instructions or excessive usage, may result in serious injury or death.
- 16** Disabled persons should not use this equipment without a qualified person or physician in attendance.
- 17** The power cage is designed to support a maximum weight of 330kg on the pull up station. Do not place more than 300kg, including a barbell, on the weight rests and spotter bars.
- 18** WARNING! Before beginning this or any exercise program, consult your physician. This is especially important for persons over the age of 35 or persons with pre-existing health problems. Read all instructions before using. Viavito takes no responsibility for personal injury or property damage sustained by or through the use of this product.

Viavito assumes no responsibility for the personal injury and/or property damage sustained by or through the use of this product.

Warning Decal Placement

Assembly

Product Overview

Thank you for selecting the Viavito PC1000 GT power cage. This manual will guide you through the assembly process.

Parts Identification Chart

Refer to the drawings below to identify small parts used in assembly. The number in brackets by each drawing is the key number of the part, from the Parts List on page 21.

Note: Some small parts may have been preattached. If a part is not in the hardware kit, check if it has been preattached.

M10 Locknut (14)

M10 Washer (13)

M10 x 70mm Bolt (12)

Before You Begin

Before beginning assembly, carefully read the following information and instructions:

- The power cage must be assembled by 3 adults on a clear, level surface.
- Because of its weight and size, assemble the power cage in the location where it will be used. Make sure that there is enough clearance to walk around the weight system.
- Place all parts in a cleared area and remove the packing materials. Do not dispose of the packing materials until you complete all assembly steps.
- For help identifying small parts, use the PART IDENTIFICATION CHART on page 07.

Assembly requires the following tools (not included):

- 2 adjustable wrenches
- 1 rubber mallet

Assembly may be easier if you have a set of wrenches. To avoid damaging parts, do not use power tools.

Assembly Instructions

Please Note: Hand tighten bolts and locknuts until the machine is fully assembled. Locknuts may require additional force to tighten completely.

Step One.

- 01** Orient the Bases (5) and Support Frame (8) as shown.
- 02** Orient the Bases (5) so that the decals are in the position shown.
- 03** Attach the End Caps (9) to Bases (5).
- 04** Attach the Support Frame (8) and one Rear Upright (3) to the Base (5) with four M10 x 70mm Bolts (12), two M10 Washers (13) and four M10 Locknuts (14). **Do not fully tighten the Locknuts yet.**
- 05** Repeat to complete the assembly of another side.

Step Two.

- 01** Attach two Front Uprights (4) to two Bases (5) with four M10 x 70mm Bolts (12) and four M10 Locknuts (14). **Do not fully tighten the Locknuts yet.**

Step Three.

- 01** Attach the Support Frame (8) and two Frames (2) to two Rear Uprights (3) with eight M10 x 70mm Bolts (12), four M10 Washers (13) and eight M10 Locknuts (14).
Do not fully tighten the Locknuts yet.

Step Four.

01 Attach the Crossbar (1) to the Frames (2) with six M10 x 70mm Bolts (12), two M10 Washers (13) and six M10 Locknuts (14).

03 See steps 1– 4. Tighten all the M10 Locknuts (14).

Step Five.

- 01** Insert the two Barbell Rests (6) into the Front Uprights (4).
- 02** Insert the two Barbell Spotters (7) into the Front Uprights (4) and the Rear Uprights (3).
- 03** Make sure that both Barbell Rests (6) and both Barbell Spotters (7) are set at the same height.
- 04** Make sure that all parts are properly tightened before you use the power cage.

Conditioning Guidelines

The following guidelines will help you to plan your exercise program and exercise safely. Remember that proper nutrition and adequate rest are essential for successful results.

WARNING: Before beginning this or any other exercise program consult your doctor. This is especially important for pregnant women and new mothers, all people over the age of 35, and those with medical problems such as heart disease, high or low blood pressure, injuries, joint problems, obesity and asthma.

Why exercise?

Exercise has been proven essential for good health and general wellbeing. Regular exercise will:

- Relieve tension and stress
- Provide enjoyment and fun
- Stimulate the mind
- Help maintain stable weight
- Control appetite
- Boost self-image
- Improve muscle tone and strength
- Improve flexibility
- Lower blood pressure
- Relieve insomnia

Beginner's Guide to Exercise

If you're beginning an exercise program for the first time or starting a new exercise program, you must check with your doctor that you are fit to do so, particularly if:

- You have been diagnosed with heart problems, high blood pressure or other medical conditions.
- You have not exercised for over a year.
- You are over 35 and do not currently exercise.
- You are pregnant or are a new mother.
- You have diabetes.
- You have chest pain, or experience dizziness or fainting spells.
- You are recovering from an injury or illness.

Workout tips

- Always perform a warm-up and stretching exercises before your workout and a cool-down and stretching exercises at the end.
- Start slowly and build up your time, speed and resistance gradually; doing too much too soon can lead to injuries.
- If you are sore or tired, give yourself a few extra days to recover.

How to begin

- Start with two or three 15-minute sessions per week with a rest day between workouts.
- Warm up for 5 to 10 minutes with gentle movements incorporating the whole body such as walking while swinging your arms in a circle and then stretch the muscles you'll use during your workout.
- Increase the intensity to slightly harder than comfortable and exercise for as long as you can. You may only be able to exercise for a few minutes at a time, but that will change quickly when you exercise regularly.
- End each workout with a 5-minute cool-down. You should then stretch the muscles you've just worked to develop flexibility, reduce muscle soreness and prevent injury.
- Increase your workout time by a few minutes each week until you can work continuously for 30 minutes per session.

How hard should you work?

Always be aware of how you feel when you exercise. If you feel dizzy or light-headed, stop immediately and rest.

Stretching Guide

Tips for stretching

- Begin with small mobility exercises of all the joints e.g. simply rotate the ankles, bend the knees and roll your hips. Gradually make the movements larger and faster. This will allow the body's natural lubrication (synovial fluid) to protect the surface of your bones at these joints.
- Always warm up the body before stretching, as this increases blood flow around the body, creating warmth which makes the muscles more supple.
- Start with your legs, and steadily work up the body.
- Each stretch should be held for at least 10 seconds (working up to 20 to 30 seconds) and usually repeated about 2 or 3 times.
- Do not stretch until it hurts. If there's any pain, ease off.
- Don't bounce. Stretching should be gradual and relaxed.
- Don't hold your breath during a stretch.
- Stretch after exercising to prevent muscles from tightening up.
- Stretch at least three times a week to maintain flexibility.

Warm-up and cool-down

A successful cardio-vascular exercise program consists of a full-body warm-up, aerobic exercise, and a cool-down. Do the entire program at least two and preferably three times a week, resting for a day between workouts. After several months, you can increase your workouts to four or five times per week.

Warm-up

The purpose of warming up is to prepare your body for exercise and to minimise injuries. Warm up for five minutes before strength-training or exercising aerobically. Perform activities that raise your heart rate and warm the working muscles. Activities may include brisk walking, jogging, jumping jacks, jump rope, and running on the spot. Try to incorporate moves that take the joints through their full range of motion.

Stretching

Stretching while your muscles are warm after a proper warm-up and again after your strength or aerobic training session is very important. Muscles stretch more easily at these times because of their elevated temperature, which greatly reduces the risk of injury. Stretching develops flexibility and reduces muscles soreness.

Stretches should be held for 15 to 30 seconds.

Do not bounce or over-stretch. Take your time on each stretch. Gradually take each stretch a little deeper on every out breath to your personal maximum.

Side Stretch

Toe Touch

Inner Thigh Stretch

Hamstring Stretch

Calf-Achilles Stretch

COOL-DOWN

The purpose of cooling down is to return the body to its normal or near normal, resting state at the end of each exercise session. A proper cool-down slowly lowers your heart rate, allows blood to return to the heart and helps prevent muscle soreness caused by the build-up of lactic acid in the muscles.

Customer Support

Contact Information

Should you require any assistance regarding this product please gather the following information and then contact us using the details below:

- Serial No. - This can be found on a label on the product itself
- Original purchase date
- Place of purchase
- Information about the place and conditions of use
- Precise description of the issue or defect.

IMPORTANT! Please retain your sales receipt. Viavito Customer Care may request proof of purchase to validate eligibility for warranty service. Warranty cover starts from the date shown on the proof of purchase.

The best way to contact us is via the website: **www.viavito.com**

Viavito

Manufacturer's Warranty

Viavito warrants this product to be free of defects of material and workmanship, under normal use and conditions, for a period of 12 months from the date of the original purchase.

Warranty extensions may apply to this product subject to registering this product with Viavito. To qualify for this, please complete the warranty registration form on the Viavito website at **www.viavito.com**. Full details of warranty extensions and the Viavito Manufacturer's Warranty are available online at **www.viavito.com**.

Terms.

This warranty extends only to the original purchaser and is not transferable.

The warranty does not cover:

- 01** Normal wear and tear
- 02** Any changes to upgrade this product from its normal state or use other than as described in the user manual
- 03** Damage resulting from:
 - a) Transport
 - b) Abuse, misuse, failure to follow instructions or improper or abnormal use
 - c) Non-home use - including commercial, professional, or rental purposes
 - d) Repairs not provided by Viavito
 - e) Accidents, lightning, water, fire, or any other causes beyond the control of Viavito
 - f) Improper location including, but not limited to, humid, dusty, or outdoor environments.

Viavito is not responsible or liable for direct, indirect, or consequential losses arising out of or in connection with the use of this product or damages with respect to any loss of property, revenue, profits, enjoyment or use, nor for any costs of removal or installation of this product.

This warranty covers products purchased as new inside the United Kingdom.

In the event of the machine requiring a repair, this may need to be performed at a Viavito authorised repair centre.

This warranty is in addition and does not in any way affect your statutory rights.
